My responsibilities:	Full-stack developer and architect
Tech stack:	Python, Computer Vision (VGG-16, Yolov5), Jupyter, CUDA, Google Colab .NET, Javascript (Vue.js), RabbitMQ, Redis, Azure
Other involvements:	- Worked on two projects (6 months each) from scratch to completion, which mostly included .NET backend optimisation and Computer Vision AI development. Both projects took 6 months each. - Was in charge of designing, approving and implementing an architecture for solutions.
Agile environment:	No agile environment. Round table meetings once a week and ad-hoc meetings on demand.

10.11.2019 – 01.01.2022	**Full-stack developer (full-time, both on-site and remotely)**
	CDN77, DataPacket (https://www.datapacket.com/)**, Prague (Czech Republic)**
Business description:	Renting server hardware
My responsibilities:	Client backend development and maintenance
Tech stack:	Next.js, Express, GraphQL, NodeJS, PostgreSQL, Redis, Prisma, TypeORM, Apollo, Sentry, Docker, Jest, TypeScript, Postmark, Kibana, Kayako
Other involvements:	- Gained substantial understanding of how servers, security and content moderation works. - Took on high risk/responsibility feature implementations.
Agile environment:	No agile environment. High responsibility environment on each developer.

17.05.2018 – 17.05.2019	**Backend developer (full-time, both on-site and remotely)**
	Feedyou (https://www.feedyou.agency/)**, Pardubice (Czech Republic)**
Business description:	Providing Chatbot software as a service (SaaS)
My responsibilities:	Developing a Chatbot mostly from scratch
Tech stack:	NodeJS, Express, TypeScript, Jest, CodeCov, TypeDoc, Azure
Other involvements:	- Collaborated to write thesis *"NLP systems analysis"* - Gained understanding of NLP, ATS analytics tools, chat service interface plugins, etc.
Agile environment:	2-week sprints, monthly major update releases, Kanban, etc.

01.02.2017 – present	## Freelance developer (part-time, remotely)
	Apple store (**3DHypercube**), (**FireFlower**)
	Google Play store (**3DHypercube**), (**FireFlower**), (**CleveRing**),
	- Creating and maintaining cross-platform mobile apps from scratch in Unity (using C#)
	- Using technologies related to Virtual Reality, UI, 3D Graphics, visual effects.
	- Developing React websites for family members, and hosting them on my DIY FreeBSD server.
	- Currently, just maintaining existing projects a couple hours a year.
01.06.2014 – 01.09.2014	## Intern (full-time, on-site)
	Ubie Digital (https://ubiedigital.com/), **Kaunas (Lithuania)**
	- Building websites with PHP, MySQL, HTML, JavaScript, CSS
	- Took summer internship by own choice to familiarize with software development at age of 17

EDUCATION AND TRAINING

01.09.2015 – 01.07.2020	## Šiauliai University - Information Technologies
	Full-time bachelor studies, Šiauliai (Lithuania)
	- Thesis: „*NLP systems analysis*" documents the characteristics and performance differences between various 3rd party NLP systems by constructing a custom open-source tool.
03.06.2019 – 07.06.2019	## WeAreDevelopers World Congress 2019 - Volunteering
	WeAreDevelopers (https://events.wearedevelopers.com/), **Berlin (Germany)**

	Erasmus+ Student Exchange Program, Pardubice (Czech Republic)
01.10.2017 – 09.02.2018	## University of Novi Sad Faculty of Technical Sciences – Information Technologies
	Erasmus+ Student Exchange Program, Novi Sad (Serbia)

OTHER SKILLS

Job-related skills	- Excellent understanding of how websites work from bare metal to client monitor.
	- Acknowledging the importance of tests and documentation.
	- Appreciation of a well-established Teamwork environment.
	- Big fan of ChatGPT and Github Copilot to accelerate development
Soft skills	- Quick learner, determined and ambitious.
	- Detail-oriented and precise when it comes to product discussions and architecture.
	- Time and location flexibility (within Europe).
	- I am a Digital Nomad, constantly travelling around Europe, full-time, since 2021.
Language	Lithuanian: Mother's tongue, English: C1, Czech: A1

SELF-DEVELOPMENT

Other related skills	- I have built a FreeNAS server at home, sat up an NGINX Reverse-Proxy, SSL certified, reachable from outside the local network. It serves many useful personal functions: storage, video streaming, website hosting for myself and my relatives.
	- Developed multiple websites for my own (or family member's) benefit.
	- Coaching/teaching a Junior developer, who seeks to pivot his career and become a frontend software engineer, from scratch.
