Date of birth 05.06.1996 | Nationality Lithuanian

Full-stack developer who builds products from zero, from the first estimate to launch and beyond, across fintech, mobility, AI and infrastructure.

WORK EXPERIENCE

19.01.2026 – ongoing

Full-stack Senior developer (full-time contract, remote)

ScaleTech (https://scaletech.lt/), **Vilnius (Lithuania)**

Business description: Product engineering partner for fintech, health and mobility companies

My responsibilities: Running several client products in parallel, from the first estimate to launch and long-term support.

Tech stack: TypeScript, NestJS, Next.js, React, PostgreSQL, Prisma, TypeORM, GraphQL (Apollo), Redis, BullMQ, pg-boss, Vercel AI SDK, Better Auth, Tailwind, MUI, Nx / Turborepo, Docker, GitLab CI/CD, S3 / MinIO, Sentry, Vitest, Jest

Other involvements:
- Wrote the financial core of a crowdfunding and lending platform, where every cent has to add up.
- Connected AI agents to clients' ERPs for a B2B procurement platform, automating supplier quotes.

22.01.2024 – 05.2026

Full-stack Senior developer (full-time contract, remote)

Woopdrive (https://woopdrive.com/), **Estonia**

Business description: Innovative car sharing and rental startup

My responsibilities: Developing an entire back-end system with an admin panel for support from scratch.

Tech stack: Classic MERN stack: Node.js, Express.js, Redis, MongoDB, AWS, React, Redux, Web-sockets, RESTful APIs Mocha, Cypress, CI/CD pipelines, Stripe

Other involvements:
- Spearheaded multiple business-level ideas, seeing them through to fruition. Contributed to UX design ideas.

18.07.2022 – 06.08.2023

Full-stack developer (full-time contract, remote)

Adva Software (https://advasoftware.com/), **Tel Aviv (Israel)**

Business description: Outsourcing company

My responsibilities: Full-stack developer and architect on multiple projects

Tech stack: Python, Computer Vision (VGG-16, Yolov5), Jupyter, CUDA, Google Colab
.NET, Javascript (Vue.js), RabbitMQ, Redis, Azure

Other involvements:
- Developed a Computer Vision AI model from scratch based on VGG-16
- Microsoft Azure .NET project performance optimization for finance analytics software
- Had full architecture design choice over my solutions

10.11.2019 – 01.01.2022

Full-stack developer (full-time, both on-site and remotely)

CDN77, DataPacket (https://www.datapacket.com/), **Prague (Czech Republic)**

Business description: Renting server hardware as a service

My responsibilities: Client backend development and maintenance

Tech stack: Next.js, Express, GraphQL, NodeJS, PostgreSQL, Redis, Prisma, TypeORM, Apollo, Sentry, Docker, Jest, TypeScript, Postmark, Kibana, Kayako

Other involvements:
- Worked closely with servers, security and content moderation.
- Took on high risk/responsibility feature implementations.

17.05.2018 – 17.05.2019

Backend developer (full-time, on-site)

Feedyou (https://www.feedyou.agency/), **Pardubice (Czech Republic)**

Business description: B2B Chatbot as a service

My responsibilities: Developing a waterfall-style Chatbot mostly from scratch

Tech stack: NodeJS, Express, TypeScript, Jest, CodeCov, TypeDoc, Azure

Other involvements:

- Collaborated to write thesis *"NLP systems analysis"*
- Worked with NLP, ATS analytics tools, chat service interface plugins, etc.

01.02.2017 – present

Freelance developer (part-time, remotely)

Apple store (3DHypercube), (FireFlower)
Google Play store (3DHypercube), (FireFlower), (CleveRing),

- Creating and maintaining cross-platform mobile apps from scratch with Unity (C#)
- Using technologies related to Virtual Reality, 2D and 3D Graphics.
- Developing React websites, and hosting them on my own DIY FreeBSD server.

EDUCATION AND TRAINING

01.09.2015 – 01.07.2020

Šiauliai University - Information Technologies

Full-time bachelor studies, Šiauliai (Lithuania)

- Thesis: *„NLP systems analysis"* documents the characteristics and performance differences between various 3rd party NLP systems in 2020 by constructing a custom open-source tool.

22.02.2017 – 23.06.2017

University of Pardubice - Information Technologies

Erasmus+ Student Exchange Program, Pardubice (Czech Republic)

01.10.2017 – 09.02.2018

University of Novi Sad Faculty of Technical Sciences – Information Technologies

Erasmus+ Student Exchange Program, Novi Sad (Serbia)

OTHER SKILLS

Job-related skills

- Excellent understanding of how websites work from bare metal to client monitor.
- Using LLMs daily to speed up development and hunt down security vulnerabilities, and integrating LLM APIs into the products I build

Soft skills

- Detail-oriented and persistent when it comes to product discussions and architecture.
- Time and location flexibility.
- I am a Digital Nomad, travelling around Europe, full-time, since 2021.

Language: Lithuanian: Native, English: C1

SELF-DEVELOPMENT

Other related skills

- I have built a FreeNAS server at home, set up an NGINX Reverse-Proxy, SSL certified, reachable from outside the local network. It serves many useful personal functions: storage, video streaming, website hosting for myself and my relatives.
- Developed multiple websites for my own (or family member's) benefit.
- Coaching/teaching a Junior developer, who seeks to pivot his career and become a frontend React engineer, from scratch.
